General Guidelines & Principles, Allowance Plans:

Standard Pay only for what you use, per SIM. No minimum period commitment.
Mid Allowance Mid level per SIM plan with a recurring fee. 12 month minimum subscription.
High Allowance High level per SIM plan with a recurring fee. 12 month minimum subscription.

- SIM cards orders will be charged. - Allowance packages have a minimum duration of 12 months and can be billed on a monthly, quarterly or yearly basis. In case of early deactivation before the minimum duration, billing of remaining fees is due until the end of the minimum duration. Allowances do not include: Streaming IP, ISDN and traffic to other mobile satellite services. - Allowance packages billed on a monthly basis have no rollover of unused allowances to the next month. Allowance packages billed on a quarterly or yearly basis will have full airtime allocation from activation through the duration of the elected period. There will be pro-rating of the allowance and subscription charges based on date of activation. Once the minimum duration period has expired, the package plan will automatically renew, unless the SIM user chooses an alternative on the date of expiry. Prices are subject to change without prior notice.

* Premium and flexible allowance plans offer added value for services. All services are available with these plans. All services can be used within the allowance except Streaming IP, ISDN, and calls to other wholesale networks. The monthly allowance is decremented at the standard plan rates. the implied rates indicate the effective discount for services under these plans.

General Guidelines & Principles specific to SCAPs

- 12 months minimum duration on all SCAPs. SIM cards orders will be charged. A SCAP package begins with the activation of the first SIM in the SCAP. Monthly fee and allowance pro-rating is based on the date of the first SIM activation of the SCAP, including any upgraded SIM's. SCAP activation fees = \$57.00 - SCAP subscriptions will automatically continue to be charged after the minimum duration period has expired or until a service order is received to have the last SIM within the SCAP cancelled or moved to another package. - Early termination penalty of the SCAP balance applies when the last SIM card in a SCAP is cancelled within the minimum duration period. - All prices are subject to change without prior notification. Please refer to our General Terms and Conditions for more information.
